

Concept 1: A white arrow is added to the original design to indicate predicted movement. The arrow is white (RGB 255, 255, 255), with an opacity of 50%.

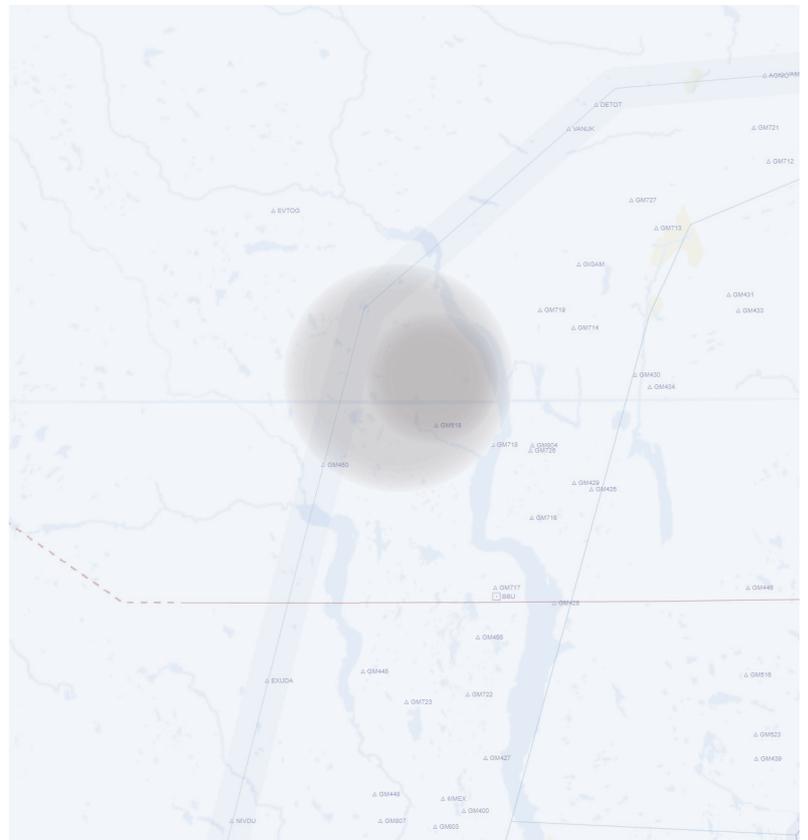

Concept 1

Concept 2: Maintains the original design only here the inner circle is drawn to the direction the Cb is moving.

Concept 2

Attachment 3:

Two possible concepts based on future technological development

The illustrations show suggestions of how the Cumulonimbus graphic can indicate direction in the future.
