

# RDA in Norway

“The NO-RDA node aims to be an important platform for the fulfilment of national strategies for Open Science, the policy on Open Access to Research Data from the Research Council of Norway, and for active national and institutional participation in European funding programmes and open calls.”

*Katrine Weisteen Bjerde, Director of Research Services, UNIT*

## FAIR data and DMP

The NO-RDA node will aim to foster national, regional and international RDA engagement through a focus on areas of strategic importance for the Nordic region, such as Data Management Plans, FAIR Data Stewardship and management of sensitive data in research within the framework of current international and statutory regulations.

## Wide Coverage

The NO-RDA node is covering a wide selection of universities, colleges, research institutions, research libraries, national archives and research service provider institutions, and will be an important platform for the governments' commitment to increase international cooperation in research with EU, ERA, Nordic countries and others.

## Foster RDA engagement

The overall goal of the node is to spread awareness about RDA activities and outputs among national stakeholders, foster RDA engagement in the different research communities, represent Norwegian research community interests in RDA and develop a sustainable business model for the operation of the NO-RDA node beyond the RDA Europe 4.0 project.

## Main tasks

- Communication and promotion to spread RDA awareness
- Training and outreach to foster RDA adoption and engagement
- Develop a sustainability plan for NO-RDA node
- A case study to showcase RDA adoption in Norway

## The node team

NSD - Norwegian Centre for Research Data

- *Katrine Utaaker Segadal*
- *Trond Kvamme*

NTNU - Norwegian University of Science and Technology

- *Ingrid Heggland*

UiO - University of Oslo

- *Margaret Louise Fotland*

UiB - University of Bergen

- *Anne Fjellbirkeland*

UiT The Arctic University of Norway

- *Philipp Conzett*

UNIT - the Directorate for ICT and Joint Services in Higher Education and Research

- *Jan Erik Garshol*

UNINETT Sigma2

- *Maria Francesca Iozzi*
