Consent form as an interview object to bachelor thesis in nursing

We are a group of third year nursing students from the Norwegian University of Science and Technology (NTNU), Trondheim, that are writing a bachelor thesis about a topic of our choosing during our practice in Nicaragua. We are interviewing several nurses that are working in the healthcare system.

Institution

NTNU, Trondheim, Norway.

Purpose of the project

The purpose of this project is to gain information on the topics chosen by the student. The information received from this interview will be used in the bachelor dissertations. Norwegian Institute of Science and Technology is responsible for the research project.

Methods

The method that will be used is an interview. If you do not feel comfortable answering one or several of the questions you can inform the interviewer and they will move on to the next question.

Confidentiality

Only the students in this group and our supervisors will have access to the data that are being collected from the interview. Any given data will remain anonymous. This will be done by changing names and disguise data to where it is not recognizable. If specific patients are mentioned or discussed their anonymity will also be remained and not recognizable.

The data will be deleted when the study ends 04.06.20.

Permission

The participation to this project is voluntary, and you can at any time during the study withdraw your participation without giving any reason. The study ends 04.06.2020. You must inform the students about your withdrawal on email.
