**TOKYO**  
characters

## *TOKYO CHARACTERS*

This booklet introduces some of the inhabitants of Tokyo, in order to give the reader a broader understanding of Tokyo's diversity. It is based on my personal observations and conversations during my stay in Japan, and it is not a scientific survey.

In every character's description there is a small portion of information about the Japanese society in terms of social, economic, demographic and cultural aspects. When planning for the future, our visions ultimately affect the whole society and the behaviorology of people. You can basically trace important values of the community if you observe the people who inhabit the city.

Amateur Photographer

### ***DESCRIPTION***

The retired salaryman has often a great interest in photography. He spends much time walking around taking pictures of nature, people dressed in kimono and attends special events such as firework festivals. He has lots of long desired sparetime to use on hobbies.
