Grønhaug G, Norberg M. First overview on chronic injuries in sport climbing: proposal for a change in reporting of injuries in climbing (*BMJ Open Sport Exerc Med* 2016;2:e000083). The first author's affiliation should be NTNU Norwegian University of Science and Technology and not Baseline Fysioterapi. In Table 2, in the 'Elite' route climbing row there is a '+' symbol missing after '8b'. In addition, we omitted to include the proper attribution for table 2. It is as follows: 'Reproduced from Gudmund Grønhaug. *Belastningsskader i klatring* page 53. Fabkokforlaget Vigmostad & Bjørke. Bergen Norway ISBN: 978-82-450-1672-7.' We would like to apologise to the authors for these omissions.
