PrivaCity: A Chatbot Serious Game to Raise the Privacy Awareness of Teenagers

Hi friend! Nice to talk to you 😊

Below we start the game. Do you know what a “Smart City” is?

A smart city is an urban area that uses different types of digital data collection sensors to supply information which is used to manage the city efficiently.

The data can be collected from citizens and devices that is analyzed to monitor and manage traffic and transportation systems, power plants, water supply networks, waste management, law enforcement, schools, hospitals, and other community services.

Now that you know what a Smart City is. Do you want to play the cool game PrivaCity? 😊
