## Application for extension of Master's thesis submission deadline

The Faculty of Engineering (IV) refers to your application from 10.05.2018, concerning an extension of your Master's thesis submission deadline.

The Faculty hereby **grants** the extension.

The new deadline to submit your Master's thesis is 2 July 2018. Your study right at NTNU has been extended accordingly.

Please note that the extension of your thesis deadline does not imply that your residence permit/housing contract has also been extended. If you need to extend your current residence permit/housing contract as a consequence of the extension, please contact our Office of International Relations.

We wish you good luck with the completion of your thesis work.

Kind regards

Lars Espen Bjørgum  
Senior Executive Officer
