

Revised Cooperative Agreement

Milestone 5.

This is a review of the changes we made to the original cooperative agreement, as demanded by milestone 5.

- Added a check-in to sharing is caring to help with the group dynamic in accordance with the results of milestone 4
- Added contingencies for members of the team that has courses running in parallel with the bachelor's thesis.
- Added tasks to the role of room booking in accordance with the results of milestone 4
- Added the use of finger gestures as the group agrees that the communication has been less than optimal.

The group has gotten off to a good start, and we are on track with the milestones and the groundwork for the thesis.

- the original agreement has worked well so far. We have only added paragraphs to take care of previously unforeseen things
