

Minerals Management Service Offshore Wind Turbine Facility Inspection Summary

The following information shall be submitted to the MMS as a record of ongoing structural integrity management activities for offshore wind turbine facilities. Indicate which inspections were performed for each facility for the reporting year and whether anomalies were identified.

[illegible]

Oper	Operator Name	FID	Facility ID	RY	Report Year
YI	Year Installed	WD	Water Depth	SS-A	Subsea Structure Annual
SS-I	Subsea Structure Intermediate	SS-E	Subsea Structure Extended	SE-I	Subsea Equipment Intermediate
TS-A	Topsides Structure Annual	TS-I	Topsides Structure Intermediate	BL-A	Blades Annual
BL-I	Blades Intermediate				
M-AN	Minor Anomaly (e.g., maintenance items, minor repair/replacement requiring no engineering, etc.)				
S-AN	Serious Anomaly (e.g., conditions requiring engineered repair, modification to future inspection program, etc.)
