# Realizing Secure Multiparty Computations

Trondheim, June 2009

NTNU  
Norwegian University of Science and Technology  
Faculty of Information Technology, Mathematics and  
Electrical Engineering  
Department of Telematics

A word cloud visualization centered around MPC (Multiparty Computation). The most prominent words are MPC, computation, and VIFF. Other significant words include privacy, distributed, secure, random, voting, sharing, applications, GUI, and implementation. Smaller words surrounding these include server, applet, communication, development, shamir, ideal, Zp, SSL, shares, design, database, active, addition, architecture, polynomial, web, secret, cryptography, encryption, Python, byzantine, computational, asynchronous, network, SMPC, Java, field, PHP, XML-RPC, and Internet.
