

# Bachelor's Thesis 086

Sindre Haugland Paulshus

## Week Report #13

Week of the year: 15  
Date written: 14.04.2020

### Done this week:

This was easter holiday. Only did minor work this week.  
Tried to parallelized de-construction of DDA job results array.  
Parallelized setting the color-array, which is already thread safe.  
Worked on the main report, added titles according to template.

### Project Status:

Results:	Good
Calendar time:	OK
Work time:	OK

### Problems:

The parallelized deconstruction of DDA job results array did not yield a faster solution.

### Solutions:

Use sequential deconstruction of DDA job results array.

### Tasks next week:

Start working on System Document, Main Report.  
Clean up and comment code.
