

Report from project meeting: Bachelor's Thesis 086

Time and date: 14:00-15:15, 06.02.2020

Place: IT-Syd, Gløshaugen

Attending: Sindre, Helge (supervisor)

Not attending: None

Chairman: Sindre

Case 01: Status documentation

Went over what documentation had been created during the last feek weeks.

Case 02: Vision Document

Went over the first draft of the Vision document. Found a few places to improve: User environment sketch should have a description, references should have dates visited.

Case 03: System Requirements doc

The system requirements doc was not discussed in depth.

Case 04: Status Timesheet

Timesheet looking ok.

Case 05: Status work space

Work space is ok.

Case 06: Anything else

The logical aspect of the FOW was discussed. What have been done already and other possible solutions like geometrics based (wall edges, model as cylinders etc).

06.02.2020, Sindre
