## Week Report #3

Week of the year: 5  
Date written: 03.02.2020

### Done this week:

- Science days finished.
- Workshop finished.
- Had an informal requirements meeting with the client.
- Edited the vision document.
- Started on the requirements document.
- Was sick on tuesday.

### Project Status:

Results:	OK
Calendar time:	OK
Work time:	Subpar

### Problems:

I was sick on tuesday, which set me back 7 hours, and meant I was not able to start the requirements document until friday.

### Solutions:

Nothing needed.

### Tasks next week:

Next week I will have to finish the requirements document, and hopefully be able to start with the actual development of the system.
