Updates from last Sprint

Things that have been added since the last sprint

Content added:

- Captcha (confirmation-page)
- Signature (confirmation-page)
- Favicon

Content optimized:

- Available-tables bug (wrong numbers used to show up)
- Longer closing hours at Friday & Saturday
- Table-GUI logic (If you were 4 people and just selected one table, you could go further. Now you HAVE to choose two tables if you are more than 3 ppl OR the big table)
- GDPR info (Better explanation of data storage and usage on confirmed reservation)
- Instant update when deleting a reservation on today's reservations
- Hashed PW for admin
- Improved phone view (res info into to columns)
- Reservation within one hour improved with information, a demo of the popup
- Personal information removed after one day, not the whole reservation
- Admin button removed after log in (on reservation list) (still available as logged while on other pages than admin)
- Reservation info better on small devices

Goals for next sprint:

- Add date-check on available tables
- API (JWT Tokens)
- HTTPS Certificate
- Pop up for captcha not filled
- Pop up for wrong password or username on Login
- Report

Discussion topics

Time	Item	Changes	Notes
	The other group	Have contacted them Integration solution	<ul style="list-style-type: none">• Dont integrate with the other group

	Front page	<ul style="list-style-type: none"> • Not possible to reserve tables hours ago • Longer closing hours at Friday & Saturday 	
	Table GUI	<ul style="list-style-type: none"> • Reservation info better on small devices • Can't go further if 4 people or more and only selected 1 table (with fewer chairs than 4) 	
	Confirm reservation	<ul style="list-style-type: none"> • reCaptcha • Better explanation of data storage and usage • Reservation info better on small devices 	
	Confirmed reservation	<ul style="list-style-type: none"> • Signature added 	<ul style="list-style-type: none"> • Italy with capital i
	Admin	<ul style="list-style-type: none"> • Reservation within one hour improved with information, a demo for popup • Personal information removed after one day, not the whole reservation • Admin button removed after log in 	
	In general	<ul style="list-style-type: none"> • Favicon • Testing 	<ul style="list-style-type: none"> • New reservation popup bug - feature not a bug:) • Begrunnelse i rapporten for å bruke ghost inspector i stedet for komponent-testing • Rapport - skriv positivt • Viktigste - få på plass autorisering (sikring av alle endpoints) • Send epost til enrico med oppdatering om hvordan det går med prosjektet. Spør om iPad og skjerm. • Teste hvordan det ville fungert i restauranten.
