

Summary 26/03/2021

Attendees: *Steffen Holanger, Emil Elton, Sander Hurlen, Christoffer Træen, Arne Styve*

DEMO

Some comments:

1. No change of text in the same field. For instance at the candidate preview list
2. Feedback
3. User tests with questionnaire
 1. Feedbacks

Very important to do testing on a test group

Should make all the prepared work done to sprint meeting week 14.

- Questions
 - how does the site look?
 - easy to read?
 - other comments?
 - Easy to navigate
- How the test should look
- Who should participate
- How we are going to collect the information

Next meeting: 9. april

Retrospective

Last time it was a very hectic period. How are we doing now?

Emil says it has been a nice 2 week period with a little break preparing from exam.

Anre says it is going to be a hectic period at the end. He says we have to be very aware of going to hard after easter.

If we get to start writing the report early, we should follow our plan. Remember the report is the most important thing to be evaluated on.

what to add in the report

Most important to reflect the project.

- Add summaries of meetings
- Retrospectives should reflect our difficulties
- About the project
 - Theory

- SCRUM, base theory
- The election algorithm
- Methods
 - Utilities
 - Frameworks
- Results
 - The product we have made
 - the project results
 - Daily standups
 - Without discussing how it when
 - How we have solved the anonymization

Arne suggest to start out early so he can come with suggestions
