Summary 29/01/2021

Attendees: *Steffen Holanger, Emil Elton, Sander Hurlen, Christoffer Træen, Arne Styve, Arne Styve*

1 Project review

Gone through retrospective and review.

- Reviews can be done with supervisor

2 GitHub with Scrum

Showed how extension worked

- ☑ Autogenerate change log from labels on release . Eg. all issues tagged with `feature` will be part of a generated changelog file

3 Upgrade GitHub organization to pro

Our organization is not classified as pro.

- ☐ Arne is going to check possibilities

4 Speed of project

Discussed challenge with how fast project should move.

- Advised to move ahead in the tempo we find appropriate.

5 How to solve voting problem (confidentiality / anonymity)

The problem can easily become very complex and hard to solve. This might conflict with the time spent to develop functionality

- Make solution simple in the beginning and if we have time make algorithm more robust

6 Make structure or functionality first?

Should we structure the project first? Or just start develop function.

- This can be done in parallell.
- Start with one feature and adapt the project as we go
