Agenda

1. Guidance about the model and results
    a. Model is working fine, we should do some different tests
        i.   Generalization, can the model work on a new podcast, and can it work on a new language.
        ii. k-fold validation, use to check the entier dataset as testset.
2. Guidance about the report, we are afraid we can't write 50-70 pages.
    a. 70 pages seems long, as long as we write well we won't have to fill that much
