

Weekly Meeting Report

Ole Einar Kværnsveen Belboe
Elias Loe Eritsland
Admir Meta

February 13th 2023

1 Meeting overview

In this meeting, the 3D model was discussed, but no final decision was made regarding which model would be followed. The conclusion was that the model would be chosen based on testing.

The hardware has been ordered, and it is expected to come within 2 weeks. This will allow us to start with the testing of the model.

The mathematical model for the handgrip trainer was presented by Roxy in this meeting. This model will be the main focus of the thesis for the following weeks.

1.1 Conclusions from the meeting

- No conclusion reached on the 3D model.
- Hardware has been ordered, it is expected to come within 2 weeks.
- The mathematical model for the handgrip trainer was presented in the meeting, and will be the main focus of the thesis in the near future.
