

# Weekly Meeting Report

Ole Einar Kværnsveen Belboe

Elias Loe Eritsland

Admir Meta

April 3rd 2023

## 1 Meeting overview

In this meeting, there were no big updates. The parameter estimation script for the discrete-time system is still underway.

The Kalman filter reading has been progressing quite well. An implementation of the Kalman filter should be ready in a couple of weeks.

It has been decided that the group will be working at a reduced rate this week, due to the easter holiday.

### 1.1 Conclusions from the meeting

- No big updates on this meeting.
- Parameter estimation script for the discrete-time system is still in progress
- Reading on the Kalman filter has been progressing quite well. Implementation should be ready in a couple of weeks.
- The group will be working at a reduced rate this week, due to the easter holiday.
